

CENTRAL INSTRUMENTATION LAB (GHG-CIL)

GHG Khalsa College of Pharmacy, Gurusar Sadhar Ludhiana, is providing following facilities for research in pharmaceutical sciences in its central instrumentation lab (GHG-CIL)

1. HPTLC Analysis. (Camag)
2. HPLC Analysis. (Waters)
3. Analysis of Samples for Infrared and UV Spectrophotometric Data With:
 - a) FTIR Spectrophotometer (Perkin-Elmer)
 - b) Double UV- Spectrophotometer (Perkin-Elmer)
 - c) Single Beam UV- Spectrophotometer (Systronics).
4. Hand Driven Tablet Machine,
5. Rotary Tablet Machine (22 Stations)
6. Dissolution Apparatus
7. Probe Sonicator (PCI),
8. Stability Chamber
9. Rota Vapour
10. Chromatotron
11. Plethysmograph (Medicaid)
